Section 1 is where corrections are needed, including a number of non-red graves. See the attachment, but ignore my pencil 18. I did use a magnifying glass. the two red ones on the right edge bottom were the last two. The upper one clearly began with a 5 and appeared to end in a 9. 59 is otherwise unaccounted for, so I pegged this one as 50. That left 51 for the last one, which was quite illegible. (Next page.)
